

Brothers, please join me in welcoming Brother Ryan Soekarmoen!

Ryan was initiated into the Beta Iota Chapter in 2014 and held the offices of treasurer, president, FEO, and ARO. He started his collegiate experience in physics, but eventually settled for a music degree and graduated May 2018.

He moved out to Ann Arbor that same summer to work as a data management engineer with Toyota North America until January of this year when he joined Rehmann as a data analyst!

He currently lives with his fiancé Nichole and their two cats, Bear and Tux and enjoys playing Elden Ring and playing with the Washtenaw Community College Band!

The title of his presentation is "Setting Boundaries: Maintaining Mental Health by Understanding Your Limits". Brothers, let's welcome Brother Ryan Soekarmoen!
